# Police Hunt Bandit Pair In Downtown Holdup

Two Bandits Holdup Proprietor And Clerk In Store Late Monday

MAKE ESCAPE IN

Over Twenty Guns And \$100 Or More In Money Taken By Bandits

Police authorities are searching for two unmasked, but armed bandits, who, at 4:20 p. m. Monday, perpetrated one of the boldest main business district holdups in years, when they held up, and tied the proprietor and an employe of the Rohrer gun store, Water Street, stole more than \$100 in cash and of despair were the only clues tocolor black, police believe.

According to reports collected during the night the bandit car has been parked at different time during the apparently shot his wife while she cause of this, it is believed a trio a powerful disinfectant, police may have composed the bandit gang. theorized. However, the exact license number of the coupe and direction it took, following the tobbery are not known. hours when suspicious neighbors FOUR OTHERS ARE

Bandits Enter Store men, both obviously American-born, and each about 25 years of age, according to William Blattmann, proprietor, and James Hass, employee, walked into Rohrer's gun store. They asked to see shotguns. One man stood in front of the position Blattman occupied behind the counter. Blattmann secured a shotgun for their (Continued On Page Two)

#### SEEK TO SPEED TANK PROGRAM

THE Russo-German war is not so much a battle of airplanes, as might have been anticipated, as it is a battle of tanks. Germany seriously underestimated the quality and quantity of Russian tanks which have kept Russia in the war far longer before he knows it. Anything you than the experts predicted would be the case at the outset.

For this reason Britain seems to have suddenly switched of study should contribute greatly its request for emphasis in the American program from bomb- but also to his character. ers to tanks. Britain still wants large quantities of ocean ships and bombers, but has asked America to step production of tanks up into the front rank.

Accordingly a new tank program has been initiated which ing a self addressed envelope with a provides for expansion of production until 1,000 medium tanks a month are rolling out by next July. Principal producers are Chrysler Motors and Baldwin and American Locomotive, with many parts being supplied by subcontractors. The bottleneck when he hurries he makes many is machine tools. Some firms now have as many as 10,000 come his carelessness? machine tools on order, all of them needed for tank manufac- A. You can calm him down best

#### **DEFENSE MEASURE FOR ALASKA**

Announcement that powerful Army transport planes are shortly to be used to fly defense supplies to this country's outposts in Alaska is a send you, without cost to you, these further assurance that in the preparedness program no bets are being 100 addition and 100 subtraction day overlooked. Shipment of defense goods to Alaska by water is a pro- facts. Just write me at 235 East ject involving weeks. By air it is three days, less in an emergency.

Alaska, separated from Asia and the land of the Soviet Union by only a few miles, is one of America's greatest strategic points, perhaps second only to the Panama Canal zone. Nothing should be left undone to make it impregnable to any attack. Establishment of a fast Army freight plane service between the United States and their isolated bases in the Far North should be a security measure for this entire hemisphere.

## BLOW AT HITLER'S OIL SUPPLY

There appears to be more than shrewd guessing in an explanation of the British seizure of the Spitsbergen archipelago and destruction of its coal mines offered by the Swedish newspaper Svenska Dagbladet. This newspaper asserts that a large German-controlled hydro-elec- 1935 to regulate interstate motor

oil from Spitsbergen coal. The British removed approximately 1000 Norwegian miners and

their families and nearly 2000 Russian miners from the islands, while uniformity among state regulations it for pleasure. their engineers presumably effectively put the mines out of commis- -Massachusetts, for example, per- So he let the Government have it sion. That means shutting off an annual capacity of at least 700,000 mits a gross load of forty thousand New the Admiral uses it for pleasure metric tons of coal. And Adolf could have turned that into a lot of gasoline and oil. From that viewpoint, if from no other, the British seizure was a haul truck operators. Now there is ing in Chicago: "The long bob must

## JUNK PILES TO GO

It is likely that the country over that monstrosity, the village dumping ground, will disappear. Government officials are organizing sue is by no means as simple as hose. Three cheers! a country-wide scrap collecting campaign. Ohio is now being used it may seem. Offhand, it might apas a test state by the OPM for increasing the supply of scrap iron and pear that if Massachuetts finds a steel by getting automobile wreckers to bring out the material in their

There are four sources of scrap: Odds and ends in back yards, adopt it also. There are, however, them and leaves them, that is if to her has cost her nearly all of barns, tool sheds, cellars and attics; abandoned spurs and short lines of many other factors which must be railroads; unused and abandoned street car lines, and motor car grave-

The latter would yield hundreds of thousands of tons. In Ohio, may now be adequate to carry such as beautiful as they want to be. for example, there are 1,000 of these "graveyards" and approximately loads, subsidiary roads and bridges 300 old cars to the yard. With each car yielding about 1,500 pounds of scrap, a potential 225,000 tons is available from that state alone.

Whether the government, in its reversion to thrift in some lines, will ever get around to collecting discarded tin cans is to be seen. If it does, the sightliness of the countryside will be improved greatly.

## HERE COMES WINTER

Fall and winter are on their way. Many parts of the country are still enjoying clear, warm days-but the months of rain and snow and cold aren't far off.

The winter season brings with it some of the greatest fire hazards-hazards which are responsible for thousands of deaths and the properly caution. It says that a destruction of millions of dollars worth of property each year. Yet those of trucks would be impracticable, wife to jump into the bay. She an afternoon dress and hat. How married to a blockhead. hazards can be easily corrected.

Winter hazard number one is your heating plant. Before long, one. Instead, the ICC proposes alive. it will be subjected to maximum load. Any defect, any weakness, may result in a disastrous fire. That is true of furnaces, stoves, fireplaces proof that an unreasonable obstrucand everything which has to do with creating and conveying heat. Don't tion to interstate commerce exists, ried to a director for three years You should not have bridesmaids. be your own inspector-that is not an amateur's job. Call in a qualified repairman It won't cost much-and it may save a life, a home, or a

Another hazard is exposed electric wiring. Cords fray, and fix- Bible Thought tures get out of whack. Short days involve heavy use of light. Here again, a qualified expert should make all repairs. And keep a stock of fuses on hand-the more or less common act of using a penny to replace a burned-out fuse is an invitation to disaster.

Now is the time to get ready for winter-not when it is here and

United States And Britain In Accord Agree To Curtail Export Competition

Britain Denies Using Unfair Methods

Central Press Columnis

WASHINGTON, Sept. 16.-Both sides having first formally denied that Britain has been competing unfairly with the United States in export markets, the two governments now are announcing their agreement upon a pact to stop it

The original yarn, published some time ago, was based on complaints from Yankee seekers after foreign customers to the effect that the British, to whom we're shipping great quantities of lease-lend supplies, are selling considerable proportions of them in countries we'd like to sell to. It was charged, moreover, that they were selling at lower prices than we can afford to

## **Mercer County Mines Are Down**

(Special To The News) MERCER, Pa., Sept. 16.-At least wo Mercer Co. coal mines were shut down Monday throwing between 400 and 500 men out of work. The mines were closed as a result of a C. I. O. United Mine Workers strike which called 40,000 workers from their jobs in 'captime' mines of six states to back up a demand for 'union shop' contracts with the operators.

An official of the U.S. Steel Corp. Mine No. 2, Grove City, reported acl ulcers caused from excess acid the mine closed but refused to give reason for the failure of the men to report for work. It is also reported that there was a walkout at the mine operated by the Sharon Coal and Limestone Co. near Brent.

The mines closed were operated by steel companies and other concerns working on national defense orders and it is feared that a long of milk. Costs but little. Try a botshutdown would be a serious blow

## What's What At A Glance (Continued From Page Pour)

be of Britain's own production? It doesn't seem a bit likely, for Britain needs, locally, about everything it can produce while the war continues. Well, then, are they to be and John Bull getting paid, in the zoning their communities as a pro- operating federations which make of funds in rural communities, has gardless of the deadly alternative. form of commodities from Latin America?

The statement doesn't answer these questions. It IS stated that British exports into countries where we're in commercial competition with 'em are to be cut down. Thirty per cent is

the figure tentatively mentioned. It's disclosed that Secretary Jesse Jones' department of commerce and the British supply negotiated the

They're not so unsophisticated as to believe that American exporters' grievances under the leaselend act will be entirely eliminated. And maybe another set of grievances will develop on the part of British exporters when the proposed 30 per cent restriction begins to be slapped onto their salesmanship.

Compromise An Anglo-American arbitration committee's to be created to compromise such differences of opinion

It remains to be seen what the Latin Americas will think about the deal. It would seem as if they'd have an interest in the matter. If Britain's "unfair competition" with the United States, for their business, is reduced by 30 per cent, why won't it increase the prices they'll have to pay for their imports?

A story was published that the British and American governments denied in chorus. Then they set about correcting what they'd said wasn't happening.

# Concerning THE AVAILABILITY AND QUALITY DODGE Job-Rated TRUCKS

THE FIRST obligation of Dodge today is to L contribute to national defense. Our contribution, at present, is two-fold: In our extensive plants, Dodge is producing important national defense units, including thousands of Army trucks. Also, Dodge is building trucks for the transportation of vital commodities - the movement of which is the essence of complete national defense!

On the broad shoulders of America's great trucking industry lies the responsibility of moving largely increased quantities of materials . . . efficiently, dependably, safely and at lowest cost. The trucking industry's willingness and ability to do this job are beyond question. They become a matter of the availability and the quality of trucks. The need is for trucks that are built for the job . . . to stay on the job ... Job-Rated trucke!

Today, we are building more trucks than ever before in our history: trucks for the Army; trucks for industrial defense hauling! They're good trucks . . . the best we've ever built! Best design, best materials. best workmanship, best quality throughout.

Now, we also announce more powerful trucks . . . much more powerful than ever before. We're building these higher-powered trucks today . . . shipping them to our dealers. And, we'll continue to do our utmost to get trucks to you . . . quickly . . . as you need them.

Defense needs the trucking industry. The trucking industry needs trucks. Dodge is providing the best trucks that men, materials and machines can create, Job-Rated trucks of the same high standard of excellence that has won for Dodge its traditional reputation for Dependability.

President, Dodge Division Chrysler Corporation

There can be no curtailment of Dodge Quality . . no substitute for Dodge Dependability

# School To End Of June Faces Pupils In Many Counties

# **Delayed Start Effect Is Seen**

red Start Of School In Part Of State

TIME LOST WILL HAVE TO BE MADE UP but that is the best we can do."

By JOHN PAGET International News Service Staff

Correspondent HARRISBURG, Sept. 16 .-Thousands of children in at least 11 counties of the state where school openings were postponed because of infantile paralysis probably will have to attend school until the end of June or later next year, the department of public instruction stated to-

Dr Clarence E. Ackley, deputy superintendent, explained that the school code provides for a 180-day for schools to operate until the full hotel, Pittsburgh, next week. term is completed-no matter how

fulfill the school year.

"The law provides," he said, "when day, schools are closed on account of Scout representatives from seven the prevalence of contagious di- states will attend this conference. seases, the teachers are paid the full amount of the contract.

### Added Pay For Teachers

"If the school year is extended to make up days missed because schools were closed, the teachers are entitled to additional pay at the rate per diem provided in the contract. Officials said it was impossible fected by the postponement.

Scheduled to open Sept. 22 are On Thursday, September 18, G. I. A. GROUP TO County on the eastern border.

Dauphin. and Cumberland Counties. Department of health officials fluh in charge.

were debating whether to extend the opening date and to include addi-

tional counties. Dr. J. Moore Campbell, director of the health conservation bureau asserted that any such decision would be made on a "day to day

"It is almost impossible for us to prophesy a week ahead what we will do regarding school openings in this Paralysis Cases Have Defer- epidemic," he said. "There are no counties where it has increased in leaps and bounds, where it would seem necessary to close the schools.

"There will be no real decision until the end of next week. That may be too late for the school authorities who plan to open schools on Sept. 22

Officials indicated that the number of school children who escaped the disease so far exceeded the paralysis sufferers that it probably would not be necessary to close the schools there.

# This is a Citizen\_This is a Stooge:

WHAT IS A CITIZEN?

A citizen is someone who is well informed-who knows how to take part in self-government. He knows the FACTS on events and issues of the day. He is equipped by this information for the responsibility of voting. He gets this information from his newspaper.

Citizens live in Democracies.

### WHAT IS A STOOGE?

A stooge is someone who IS UNINFORMED. He IS KEPT from knowing the things that the citizen has to know. He can't take part in selfgovernment. He can only do what he's told—submit to regimentation -because he doesn't know any better. He hasn't any honest newspaper to show him he's a stooge.

Stooges live in Dictatorships.

All he reads is propaganda.

They line up in led stores to buy

STOOGES

STAND IN LINE

what the dictators tell them. They don't get what they want; they get what the dictators want them to get. And they pay what the dictators want them to pay. If the dictators' propaganda says that butter made from axle grease tastes good, the stooges have to smack their lips over it. Or else get smacked!

force him into it.

WANTS to buy ... where he can get the best value for his money. Merchants have to COMPETE for his business. They tell him about their wares in newspaper advertising columns. He gets the FACTS about what they have to sell, then makes up his own mind about what to buy. Nobody can

without independence in their newspapers. But to the citizens of the United States—who really

LIVE—the newspapers are invaluable. They print the news facts that make self-government possible. They print the advertising facts—the all-important information that helps Americans to LIVE

More than 320 leading newspaper publishers join together to bring you this weekly message about the function of the press in a free nation. Newspaper Publishers Committee, 420 Lexington Ave., New York.

# **Dodgers Trim** Reds In 17th

Score Is 5 To 1 In Longest Game Of Season At Cincinnati Park

ALLEN HERO IN DODGER VICTORY farm club.

International News Service Sports CINCINNATI, Sept. 16-Six weeks ago he was a tired, disinterested, old man-as baseball players go-a cast-off of the St. Louis Browns, one of the poorest teams in baseball, but today Johnny Allen, 35year-old perennial problem pitcher bums of Brooklyn and a star of a ball game unprecedented in the history of the National league.

Allen was the big hero yesterday as Brooklyn's battling Dodgers fought with their hearts and their heads through 16 scoreless innings, then survived a ghastly 17th to whip Cincinnati, 5 to 1, and stretch their league lead to two full games over the idle St. Louis Cardinals.

Near No-Hitter For 15 innings. Allen, who had been within one pitch of a no-hitter in the first nine innings (vielding only a single) fought back each challenge of the Reds and big Paul Derringer. He was relieved for a pinch-runner in the 16th, to no avail, and after relief hurler Hugh Casey had blanked the Reds in their turn, Umpires Goetz, Reardon and Conlan decided to have the teams play one more inning. If no score resulted-they would call the game.

It seemed there would be sufficient light to play one more frame but, when Pete Reiser opened the 17th with his 13th homer, a 380-foot drive into the right centerfield stands, the Reds decided to stalland put on one of the weirdest ex-

the plate, argued, refused to watch on the baseline and, in a thoroughly formance for a team mathematically out of the pennant race ,turned a

Professional Service

FROM ME TO YOU

By MESEEALL

This is the 16th of September . . . all you lads who are wearing

straw hats, according to the book of rules . . . are slightly out of

style. The 15th is the last day for those cool comfortable jobs . . .

it makes no matter if you did work all summer to get your straw

hat comfortable . . . you must give it up now until next spring.

Fall is here and you should dress for the season. Beautiful fall

we are having, nice and warm . . . wish it would stay like this until

next April and then warm up . . . we would sort of give Florida

and California a run for their money. Well, that's not here or

there, right now it's time to do away with the straw . . . if it's

too warm for a felt hat, go without a hat, it will do your head good

Just received a short letter from Oren D. McFarland, Communica-

tions Officer at Camp Bowie, Co. "A" 755th Tank Bn . . . Things

are going along in great shape down in Texas according to this

letter . . . the Bn Executive officer happens to be Major C. B.

Ewing, who we believe is known here in New Castle . . . very few

boys from Pennsylvania are stationed at Camp Bowie, they mostly

come from Ohio and Points west . . . swimming and watermelons

are in season . . . watermelons sell as low as ten cents, the kind

that really taste good. The nearest town to Camp is Brownwood

... prior to the emergency this town was 30th in size in Texas

been built. Morale is fine in Texas . . . however at the present

time a great number of men from this camp are engaged in war

games in Louisiana . . . Camp Bowie can accommodate about 30,-

000 men . . . Don't forget folks, write to the boys in camp, they

Speeding . . . it's becoming worse and worse, especially on streets

where children are crossing going to school . . . North Mercer

street seems to tempt the driver to "open up" . . . quite a few lads

who go to the George Washington school drive cars . . . and they

have them loaded down with passengers and up the street they go

in the mornings . . . small children going to Highland from the

Wilmington Avenue section take their lives in their hands, when

they cross the street . . . When a bad case on some disease breaks

out we quarantine the sick one and those who possibly came in

contact, we try to prevent a death . . . why can't we prevent a

today it is 19th . . . in the past year over 700 new houses have

. . . but don't sit in a draft, it's no fun to have a cold now.

Fountain, Ellwood City. Phone 1641J. tell's, 344 E. Wash. Call 1260-J. 1t-14

# ANDREW DODDS TO HEAD SEAL **CAMPAIGN HERE**

Lawrence County Tuberculosis Society Board Of Directors Has Meeting

Andrew Dodds, Lawrence county's deputy controller, was elected Monday night, to head the coming Christmas Seal sale of the Lawrence County Tuberculosis Society.

Mr. Dodds was given the appointment to this post for the second Directors of the society, at their first fall meeting held in the society office. Lawrence Savings & Trust Company building.

F. A. Hover, society president, presided at the session and led a general discussion on the work of the organization in the tuberculin testing project undertaken in Lawrence county during the past year.

Preliminary plans for the Christmas Seal campaign were also discussed, and committees for the drive will be appointed in the very near future. The annual campaign is the sole means for raising funds for the work of the society in the fight against tuberculosis.
